

In Demand Agricultural Careers

AGRICULTURAL & FOOD SCIENCE TECHNICIANS

EDUCATION

An associate's degree in biology, chemistry, crop or animal science, or a related field. Some positions may require a bachelor's degree.

IMPORTANT QUALITIES

- Analytical skills
- Communication skills
- Critical-thinking skills
- Interpersonal skills
- Physical stamina

WHAT THEY DO

Work with agricultural and food scientists in food, fiber, and animal research, production, and processing. Assist with animal breeding and nutrition. Conduct tests and experiments to improve crop yields or increase the resistance of plants and animals to disease and insects.

EMPLOYMENT OPPORTUNITIES

MEDIAN HOURLY WAGES \$17.71

Employment of agricultural and food technicians is projected to grow 8 percent from 2016 to 2026, about as fast as the average for all occupations. Demand will continue for research in a large variety of areas.

WORK ENVIRONMENT

Agricultural and food science technicians work in a variety of settings, including laboratories, processing plants, farms, and greenhouses. Technicians typically work full time, have standard work schedules, and may travel for work.

DIESEL MECHANIC

EDUCATION

High school diploma or equivalent. Completion of postsecondary training programs in diesel engine repair and industry certification preferred.

- Customer-service skills
- Detail oriented
- Dexterity
- Mechanical skills
- Organizational skills
- Physical strength
- Troubleshooting skills

WHAT THEY DO

Inspect, repair, and overhaul buses and trucks, or maintain and repair any type of diesel engine. Consult with customers, read work orders, and determine work required. Perform basic care and maintenance, including oil changes and tire rotations, read and interpret diagnostic test results to identify problems, and repair or replace worn parts.

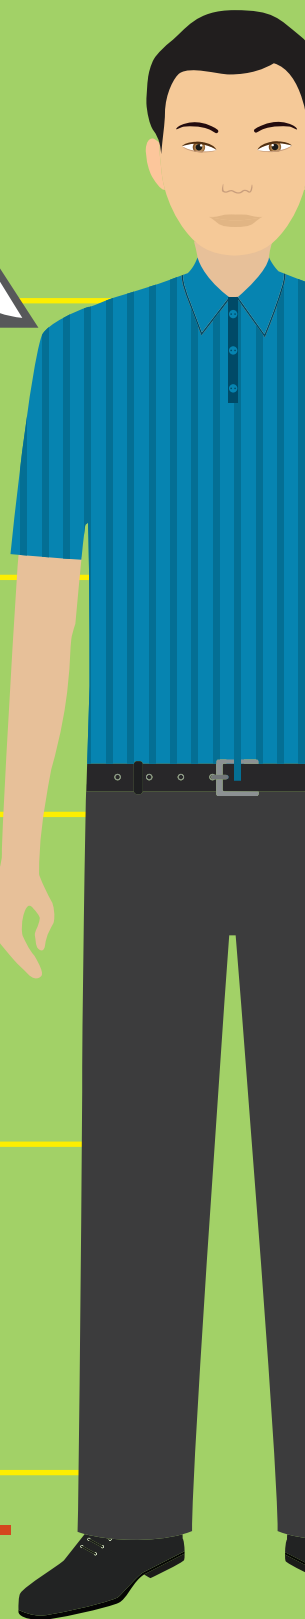

MEDIAN HOURLY WAGES \$19.85

Employment of diesel mechanics is projected to grow 9 percent from 2016 to 2026, about as fast as the average for all occupations. As more freight is hauled cross-country more diesel mechanics will be needed to maintain and repair the trucks.

WORK ENVIRONMENT

Diesel mechanics usually work in well-ventilated and sometimes noisy repair shops. Occasionally repair vehicles on roadsides and at worksites. Most work full time and overtime is common.
