

# In Demand Manufacturing Careers

## CNC PROGRAMMER AND MACHINISTS

## WELDERS

### EDUCATION

Some operators are trained on basic machine operations and functions in a few months. Other workers, such as computer-controlled machine tool operators, may need up to two years to become trained.

### IMPORTANT QUALITIES

- High degree of autonomy
- Troubleshooting
- Integrity
- Industrial automation
- Process management
- Data entry

### WHAT THEY DO

Operate programming software to generate computer numerically controlled (CNC) programs used to control CNC machine tools that drill, mill, rout, grind, or notch.

### EMPLOYMENT OPPORTUNITIES

**MEDIAN HOURLY WAGES \$21.89 TO \$30.07**

Demand is expected to be strong, as many firms are adopting technologies such as machine tools and robots.

### WORK ENVIRONMENT

These workers often operate powerful, high-speed machines. Operators usually wear protective equipment, such as safety glasses, earplugs, and steel-toed boots to protect them from flying particles of metal or plastic, machine noise, and heavy objects.

High school diploma or equivalent, combined with technical training and on the job training, welding certificate

- Detail oriented
- Self-starting / Self-motivated
- Problem solving
- Integrity
- Dependability
- Team player
- Work independently
- Basic computer skills

Responsible for assembling structural metal products using tools, welding equipment, and their own hands.

**MEDIAN HOURLY WAGES \$23.34 TO \$24.21**

Types of welders in demand: arc and gas welding

Welders and cutters may work outdoors, or indoors, sometimes in a confined area designed to contain sparks and glare. Most welders work full time, and overtime is common.
